

TRAINING AND SIMULATIONS SUPPORT

OT Training Solutions, LLC (OTTS) is a Service-Disabled Veteran-Owned Business (SDVOB), founded in 2008. We offer valuable services to governmental and non-governmental organizations for training, education, and operational support.

OUR EXPERIENCE

OTTS' team of highly qualified individuals provides broad expertise in the virtual trainer marketplace through the design, development, fielding, and support of gunnery and driver trainers. Our specialized products, integrated solutions, and professional support services provide valuable training to Army and National Guard units across the country. Our most recent project provides crew trainers for the Stryker Remote Weapon System. This virtual trainer provides gunnery and crew coordination training in a variety of simulated terrain and weather conditions. Simulated enemy engagements are designed as a gate to live fire, scoring crew performance to TC-3-20.31 standards. Broad support for training exercises is provided via our Training Support Center (TSC) efforts where we manage and issue training equipment for exercises and operate and maintain complex aviation and ground virtual trainers across the United States.

CURRENT CORE COMPETENCIES

COMBAT LOGISTICS & TRAINING

Our combat & logistics training is focused on a broad range of skills, taught by talented instructors with specialized skills and training.

VIRTUAL SIMULATION & TRAINING

We work closely with the U.S. Army and Army National Guard to develop, manufacture, deploy, maintain and upgrade virtual training devices.

MILITARY LEADERSHIP

Our experienced team of retired officers mentor deploying commanders and troops on strong leadership and preparing for interactions with a variety of audiences.

LOGISTICS SUPPORT SERVICES

Our team provides equipment, facilities, spares, technical information and highly trained personnel who support the U.S. Army National Guard.

RANGE & TRAINING AREA MNGT SERVICES

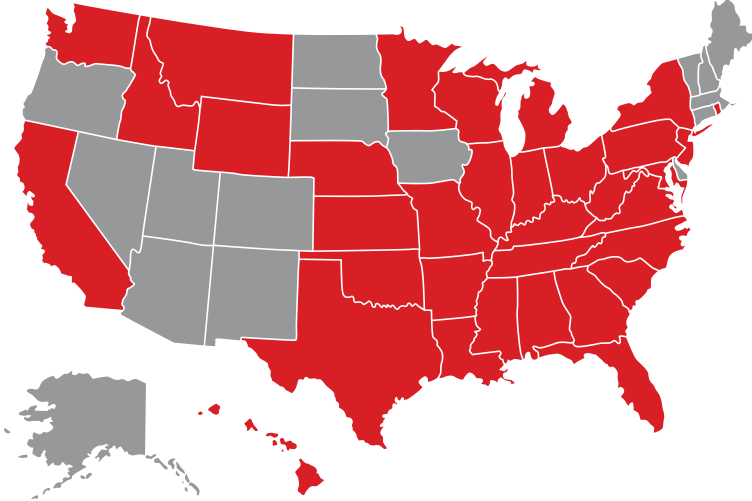

To ensure each range and training facility operates to support our warfighters, OTTS provides training and range support specialists and maintenance to the U.S. Army & Army National Guard.

MISSION

OTTS' mission is to deliver World-Class mentoring, training, instructional, and support services to United States and Foreign Military forces and Government and Non-government organizations.

OPTARSS Task Order Joint Base Lewis-McChord Military Analyst Support

OUR WORK SCOPE IS BROAD, OUR STANDARD IS EXCELLENCE

We began our journey in 2008 with a contract award for the Afghan National Army Literacy Program where we teamed with a large US University to develop curriculum. Soon after that initial success, OTTS competed and won a \$62M multiyear IDIQ Afghan National Security Forces Literacy Contract, where we managed in excess of 1,000 teachers with a small highly effective management staff.

Today, our broad scope of work ranges from educational program development and delivery to providing virtual trainers and supplying, field maintenance technicians, instructors/operators for virtual training devices and repairing and managing training equipment in the U.S. and abroad.
